SUBJECT: CIA Color Working Group

1. For the past several months an informal Color Requirements Working Group under the leadership of Dr. [] of the Nuclear Energy Division/SI has served as a focal point for the Agency support to the CIA member and COMIREX member of the Interagency Color Task Force. During this period they contributed strongly as a group to the specific color collection and rendition requirements on []. For your information, a list of persons who have attended Working Group meetings is appended. Believing that a forum of this kind is the best way to achieve understanding of the value of color photography throughout the Agency, I suggest we give it a more formal status.

2. Therefore, I propose that the CIA Color Working Group be formally established for the remainder of calendar year 1970 as a focal point for discussions on the use and

value of color film between intelligence analysts, system oriented specialists, photointerpreters, photographic specialists and intelligence requirements personnel. It should continue its support to the CIA member and COMINT member of the Interagency Color Task Force, both ex-officio members of the Working Group, and to the CIA members of the ICPS and the ASuSubCom in the areas of requirements for the collection and interpretation of color film. It would act as a focal point for discussions on the collection, interpretation and analysis of color photography on such domestic targets as can be considered analogues of priority intelligence targets. Finally, it should foster the exchange of information between analysts, photointerpreters and management on the uses and intelligence worth of color film on priority foreign intelligence targets.

3. [] of NED/SI is my candidate for Chairman for the remainder of calendar 1979.

4. If this proposal is agreeable, representation from your offices or divisions is requested. Please have the names of your representatives and alternates given to [] on extension []
